Come to Sacramento—join others in the fight against colorectal cancer

About California Colorectal Cancer Coalition (C4):

In September 2007, C4 formed with the mission to save lives and reduce the number of Californians suffering from colorectal cancer. The coalition's mission is to save lives and reduce suffering from colorectal cancer for all Californians. C4 plans to achieve this by implementing strategies to reduce disparities in colorectal cancer screening, diagnosis and treatment among underserved populations in California; increasing capacity for colorectal cancer screening; and advocating for CRC screening programs to serve uninsured and underinsured populations.
